15. Madeira Cake	
16. A photographic exhibit having "A Bug's Life" as a theme, no larger than A4.	
17. Children's class—a picture made out of dried pasta, no larger than A4.	

**Hybrid tea** is an informal horticultural classification for a group of roses.<sup>[1]</sup> They were created by cross-breeding two types of roses, initially by hybridising hybrid perpetuals with tea roses. It is the oldest group classified as a modern garden rose. Hybrid tea flowers are well-formed with large, high-centred buds, supported by long, straight and upright stems.

**Floribunda** (Latin for "many-flowering") is a modern group of garden roses that was developed by crossing hybrid teas with polyantha roses. The idea was to create roses that bloomed with the polyantha profusion, but with hybrid tea floral beauty and colour range.

**Climbing roses**—There is often confusion between Climbing and Rambling Roses. The short answer is very simple. Most Rambling Roses only flower once. Most Climbing Roses flower right through the summer. However there are exceptions.

**Shrub roses** are the product of crossing various species roses with modern bush roses during the 20th century. Nearly all have something in common with modern roses in their overall character. They usually form quite large shrubs of 5 ft to 6 ft in height.

## RULES & NOTICES

**One entry per class member**

**Vases are not provided**

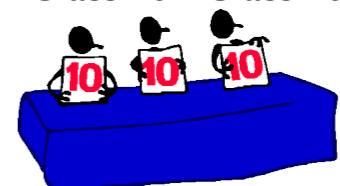

**Exhibits must be grown by the competitor**

## JUDGING

Judging will be for presentation and quality. Points and prizes will be awarded for the 1st, 2nd and 3rd aggregate points (classes 1 – 15 inclusive).

A prize awarded for Class 16 - Class 16 to be by popular vote.

## RAFFLE & AUCTION

There will be a raffle followed by a small auction of donated items from the show.
